4 August 1966

NOTE FOR: Mr. Carl Duckett

1. More on this pending briefing of Senator Russell's Committee.

25X1A [ ] 2. The briefing had been tentatively scheduled for tomorrow but this is now cancelled and the guessers are guessing next week. [ ] et al really don't know what they want and feel that something very compact which Helms could present might be pretty nice. I suspect, however, that Bud would very strongly want to make part of the presentation pertaining to Agency R&D himself, and would be entirely willing to fly down for the hour or so that would be required.

3. Although we have a complete script, slides, and everything else at the ready, I suggest you discuss the possibility of this with Bud to see if he concurs that he wants to make it, and that he would come down so that we can give this firmly to the PBB guys who are setting it up.
